POLICY STATEMENT HEALTHY FOOD & DRINK CHOICES

**Updated: 2020
Date for review: 2024**

Rationale

The human person, though made of body and soul, is a unity. The human body shares in the dignity of the image of God: it is a human body precisely because it is animated by a spiritual soul, and it is the whole human person that is intended to become, in the body of Christ, a temple of the Spirit.

‘Catholic schools contribute to the development of our young through education, particularly to their formation in Christian conscience and virtue’ (Mandate, 6). Students in Catholic schools are educated to understand that they are physical/spiritual beings in relationship with God. Catholic schools encourage students to make responsible choices for their lives including healthy food choices.

Nagle Catholic College has a legislative responsibility to provide appropriate levels of care to students in the education environment.

Principles

- A healthy and nutritious food and drink policy makes a positive statement to students, staff members, parents/guardians and the broader community about the value placed on human life
- It is important that parents/guardians, staff members and students work together to support a whole school approach to building a school culture in which students actively choose nutritious food and a healthy lifestyle
- Nutritional food at affordable prices is the main focus when providing food to students
- Healthy canteen and vending machine choices complement the nutrition knowledge taught in the classroom and promote a school culture of healthy eating that may extend into the wider family and community
- The school curriculum, along with the family home, is the ideal place for students to learn about nutrition and making healthy food choices
- The College will comply with the CECWA Occupational Safety and Health in Schools Policy in order to provide safe handling, preparation and serving of food
- The College expresses its culture and traditions through events of significance which may include traditional and celebratory food choices

Procedures

- The Principal will ensure that staff are appropriately trained in safe food handling, hazard identification, risk management and allergy prevention
- The College canteen will promote a wide range of healthy and nutritious food and drinks and follow the minimum standard required to ensure that menus follow the 60% ‘green’ and 40% ‘amber’ food and drinks, according to the traffic light system in Appendix C of the Department of Education and Training Healthy Food and Drink Policy
- Students are not permitted to purchase any more than five (5) of one item

NAGLE
CATHOLIC
COLLEGE
EST 1994

- The College, when providing food and drink choices other than through the canteen, will promote a range of healthy and nutritious food and drink
- The Star Choice Buyers' Guide, which is a register of all products that meet minimum nutrient criteria for the food type, is used as a resource for planning menus and making decisions about serving sizes
